UNITED STATES DISTRICT COURT SOUTHERN DISTRICT OF NEW YORK

IN THE MATTER OF THE APPLICATION OF NEW INSPIRATION BROADCASTING CO., INC., et al.,

Applicants,

For Licenses For Their Radio Broadcasting Stations.

Related to

UNITED STATES OF AMERICA,
Plaintiff,

v.

AMERICAN SOCIETY OF COMPOSERS, AUTHORS AND PUBLISHERS,

Defendant.

No. ____(DLC)

JOINT APPLICATION FOR THE DETERMINATION OF REASONABLE FINAL LICENSE FEES FOR ASCAP LICENSES

No. 41 CV 1395 (DLC)

The American Society of Composers, Authors and Publishers ("ASCAP") and applicant New Inspiration Broadcasting Co., Inc., on its own behalf and on behalf of certain owners of commercial radio broadcast stations represented by the National Religious Broadcasters Music License Committee ("NRBMLC") (collectively, "Applicants"), hereby jointly apply to this Court, pursuant to Section IX(A) of the Second Amended Final Judgment entered in *United States v. Am. Soc'y of Composers, Authors and Publishers*, Civ. No. 41-1935 (S.D.N.Y. June 11, 2001) ("AFJ2"), for a determination of reasonable final license fees for licenses covering Applicants' public

performances of musical works in the ASCAP repertory as are encompassed by the NRBMLC license request dated December 21, 2007 (attached as Exhibit 1 hereto). Specifically, Applicants, the owners and/or FCC licensees of approximately 500 commercial radio broadcast stations (the "Stations"), seek a determination of reasonable final license fees for the Stations' performances of music in the ASCAP repertory given by means of over-the-air broadcast transmissions, digital "HD" transmissions, translators, and transmissions over the Stations' Internet and wireless platforms, or any other platform owned and operated by a station that is capable of displaying or disseminating a Station's transmissions. Applicants' request also includes, as applicable, online or wireless transmissions of music in the ASCAP repertory made by entities under common ownership or control with the Stations' owners. A current list of the Stations is attached hereto as Exhibit 2.

Applicants seek reasonable blanket license fees and reasonable per-program period license fees and license terms for performances as described above, transmitted in the United States for periods commencing January 1, 2008.

The Parties

1. ASCAP represents the musical works of over 550,000 composer and music publisher members. ASCAP's members' works span the widest array of genres, from popular music, rock, alternative and country, to gospel, Christian, classical, and jazz. Today, ASCAP's repertory contains many millions of copyrighted musical works. ASCAP is an unincorporated association that operates on a nonprofit basis, collecting license fees and distributing the monies it collects as royalties, after deduction of operating expenses.

2. The NRBMLC represents in music licensing matters the collective interests of a particular group of commercial radio stations in the United States that, due to their particular formats, or otherwise, are not represented by the Radio Music License Committee ("RMLC"). Among other things, many of the stations represented by the NRBMLC perform relatively limited amounts of copyrighted music. To that end, the NRBMLC has negotiated and/or conducted litigation in proceedings such as this concerning license fees and license terms for the public performances of music by local commercial radio broadcasts throughout the country. As a result, following the conclusion of negotiations and rate-setting proceedings between the NRBMLC and ASCAP (sometimes referred to hereinafter as "Parties"), hundreds of commercial radio stations have entered into license agreements with ASCAP based on the outcome of those negotiations or court proceedings.

Prior Dealings Between the Parties

3. The NRBMLC has represented a specific segment of the commercial radio industry in music licensing negotiations with ASCAP for decades. In *U.S. v. ASCAP*, *Application of Salem Media*, 981 F. Supp. 199 (S.D.N.Y. 1997), this Court (Conner, J.) determined that the stations represented by the NRBMLC were not similarly situated with the radio stations represented by the RMLC. The NRBMLC and ASCAP subsequently negotiated appropriate forms of licenses for the stations represented by the NRBMLC. After expiration of those licenses, the NRBMLC reached agreement with ASCAP on final blanket and per-program forms of license agreements covering the years 2003-2007 (the "2003-2007 Licenses"). Those commercial radio stations that were members of the NRBMLC or otherwise agreed to be bound by the NRBMLC's negotiations or rate-

setting proceedings with ASCAP were licensed on the basis of those forms of license for the 2003-2007 period.

4. On December 21, 2007 the NRBMLC requested on behalf of some 500 stations licenses from ASCAP to cover specified performances of musical works in the ASCAP repertory for periods commencing January 1, 2008. See Exhibit 1. Thereafter, the Parties agreed that the stations represented by the NRBMLC would continue to report and pay license fees to ASCAP calculated on the basis of their ASCAP licenses in effect for periods prior to January 1, 2008, subject to retroactive adjustment to that date as provided in any agreed upon, or court-determined, license terms. Since January 1, 2008, the Parties have negotiated in good faith to attempt to reach agreement on license fees and license terms for periods post that date.

Jurisdiction

- 5. This Court has continuing jurisdiction over the setting of reasonable license fees for the public performance of works in the ASCAP repertory pursuant to Sections IX and XIV of AFJ2.
- 6. ASCAP and the NRBMLC, on behalf of Applicants, jointly commence this proceeding pursuant to Section IX(A) of AFJ2, which permits a music user or ASCAP to apply to the Court for a determination of a reasonable fee, in order that the Court may enter an Order as described below.

Relief Requested

7. The Parties have recently reached agreement on final license fees and license terms for the period January 1, 2008 through December 31, 2018, as set forth in the proposed Final Order being submitted to the Court with this Joint Application. On

May 21, 2015, the Parties notified the Stations of the agreed upon final license fees and

terms, informed the Stations that they intended to seek the Court's approval of the new

licenses, and told the Stations that "if you have any objections to the proposed new

license terms negotiated by the NRBMLC and ASCAP, please notify the NRBMLC in

writing, within seven (7) days at the Email address below." To date, no such objections

have been received by the Parties. Accordingly, ASCAP and the Applicants respectfully

request that the Court enter the proposed Final Order that, inter alia, memorializes their

agreement as to license fees and license terms; directs ASCAP to offer to the Applicants

the agreed-upon form of license agreement attached to the Proposed Final Order; and

makes clear that the Stations represented by the NRBMLC shall be bound by the terms of

the Final Order.

Dated: <u>Dec.</u> 29, 2015

New York, New York

EXHIBIT 1

Advocating Fairness in Music Licensing for Specialty and Talk Radio

Edward G. Atsinger III, Chairman Russell R. Hauth, Executive Director

VIA FEDERAL EXRESS

December 21, 2007

Mr. Ray Schwind ASCAP One Lincoln Plaza New York, NY 10023

Re: Application Pursuant to Consent Decree Section IX

Dear Ray:

In light of the rapid approach of December 31, 2007, and our slow, but ongoing discussions, we are sending you this letter as a formality to document our intent (and, we expect, ASCAP's) that the local radio stations represented by the NRB Music License Committee (the "NRBMLC") continue to be licensed by ASCAP as of January 1, 2008. Accordingly, pursuant to Section IX of ASCAP's consent decree, as amended, the NRBMLC hereby requests, on behalf of the radio stations it represents, licenses to perform the compositions in ASCAP's repertory by over-the-air analog and digital radio broadcasts and Internet "webcast" transmissions of the over-the-air broadcast programming, either directly or through the facilities of intermediaries. This application includes a request for licenses that reasonably recognize the limited amounts of music performed by many of the NRBMLC-represented stations and applies only to the extent that performances are not otherwise licensed (for example, and without limitation, by streaming through a licensed intermediary) and require a license under copyright law.

All correspondence regarding this matter should be directed to me, at the below address, with copies to NRBMLC Counsel, Bruce Joseph.

I look forward to discussing this matter with you.

Very truly yours,

Russell R. Hauth Executive Director

cc: Bruce Joseph, Esq.
